

"Engaging in the Modernisation Agenda for European Higher Education"

Brussels, 30 January 2012

The new **EU Communication Supporting growth and jobs** – an agenda for the modernisation of Europe's higher education systems (September 2011) **highlights** once more the **need** for Member States and European higher education institutions **to play a much more proactive role in contributing to the development of a smart, dynamic and sustainable competitive economy** in the Knowledge Society which is also at the heart of the EU2020 Strategy.

The conference will take a close look at the EU communication, its impact on higher education institutions and the future opportunities it will offer in the **new programmes** under the next multiannual financial framework **2014-2020**, i.e. the new integrated **Education Europe, Horizon 2020 and the Cohesion programmes**. It will build on the outcomes of the Modern European platform on Higher Education Modernisation of which CHEPS is a consortium member.
