

## Known issues

### 1) **For:** Microsoft Powerpoint 2016 and Microsoft Excel 2016

**Symptom:** Usually it is possible to keep working on a document after saving it in JOIN (using the button “Save in JOIN ) and save the changes you make to the document in JOIN again by simply pressing the Save icon (  ) in the left top corner of the office application window.

While working with Microsoft Powerpoint 2016 and Microsoft Excel 2016 it is possible that changes made to the document after the initial saving of the document are not being saved to JOIN despite pressing the Save icon. A sign of this happening is when the displayed filename in the titlebar of the office document looks like this:

**Urgent advice:** After saving a document in JOIN, to continue working on it close the document (with a filename like mentioned above) and reopen it from JOIN instead.

For more information about JOIN and available manuals, see the JOIN website <https://www.utwente.nl/join>.
