WE NEED TO WORK TOGETHER TO STAY SAFE!

TAKING EXAMS ON CAMPUS IN CORONA TIMES

PREPARE BEFORE COMING TO CAMPUS
• Make sure you know in which building and room you need to be.
• Look into the regulations that apply during the exams.

BEFORE VISITING OUR CAMPUS
• Take a Corona self-test.
• Fill in the health check.
• Do not come to the campus in case of a positive test or when you have COVID-19 (cold) symptoms. Please find an alternative solution.

THINK ABOUT HOW THE EXAM SHOULD TAKE PLACE
• The layout of the rooms is set to comply with the 1.5-metre distance ruling.
• Make sure you make optimal use of the scheduled rooms and spread students. Also, it is good to inform them about this.
• If a room offers more space than needed, feel free to keep greater distances.

DURING THE EXAM
• Do not make any changes to the layout or move furniture.
• Keep a positive vibe in the room and make sure everyone adheres to the rules.
• If you see anyone not following the rules, you may point it out kindly.

AFTER THE EXAM
• Make sure that students will not stick around after the test.

THIS IS HOW UT ARRANGES ON-CAMPUS EXAMS DURING CORONA TIMES
• UT maintains the national guideline for the maximum group size of 75.
• All buildings, lecture halls and other exam locations comply with the official ventilation and air circulation guidelines from RIVM (The Dutch National Institute for Public Health and the Environment).
