

Student Testimonial

I spend the last 3,5 months in Buenos Aires, Argentina. There, in a poorer part of town called Barracas, I worked in the small NGO Lekotek. My host organization is working with children with and without disabilities and their families and chose to play as their way to promote the social inclusion of its members. To me, it was a great experience because the staff of Lekotek and

also the families were very welcoming and interested.

Working in this organization, I did not only improve my Spanish but was also able to get to know the Argentinean culture.

Traveling to Argentina is something I would recommend to everybody since Argentina does not only offer every climate from sub-tropical to polar and beautiful landscapes, but also an open-minded population and a culture rich in diversity I would not have wanted to miss.
