Boardmembers: 4
Hours/week: 35-40
Duration: 1 year
Board changes: Sept
International: Yes

Apollo is the umbrella for all performing arts associations. That means we represent them and their needs towards the Student Union, Vrijhof Culture & Events, the UT and external parties. We also offer advice, contacts and support in any way for all our members. Apollo helps the Student Union by managing the Subsidy Fund for Culture, meant for all cultural events organized by students. Besides that, Apollo organizes several activities to enhance the arts community that we have built here on campus. For example: an open stage, a collaborative dance show and a winter fair.

On a day to day basis, this means having a lot of meetings with a diverse group of people and solving problems of associations. Want to see how busy we are? Don't be afraid to drop by our room in the Bastille for a cup of coffee or tea and a cookie!

Plaatselijke Kamer van Verenigingen Fact, or for short Fact, is the formal cooperation body of the largest student associations of Enschede. Besides, it is the official umbrella association of the social student associations of the Student Union of the University of Twente.

The Fact puts effort into the student life of Enschede, and especially in that of the student associations and their members. This happens in three different ways:

Serving stakeholders: Fact represents the student associations towards the university, municipality and the "Landelijke Kamer van Verenigingen".

Coordination: Fact coordinates activities between multiple associations. For example, the Kick-In, open parties and events within the city center. Fact also tries to find ways to improve the student life.

Promotion: Fact organizes activities to show new students the student life of Enschede. This happens for example during the Kick-In, Open Days or during the Enschedays, which is an two day version of the "Kamerzoekdag".

Duration: 1 year
Board changes: Sept
International: Yes

D.B.V. de Stretchers is the multi-sports club of the University of Twente. We're different from other student sports associations in that we do not focus on a single sport but allow our members to do a whole range of sports and games. Every training session we play at least two different types of sport. The schedule is determined by the combined preferences of all our members, so the more popular a certain sport is the more often we play it. Your level of play doesn't matter, we only ask of our members to have fun, have sportsmanship and enjoy themselves. Besides our weekly training sessions, we organize events such as barbecues, movie nights, game nights and the annual camping trip. If you want to know more, get to know us or just try a training session you're always welcome to join a session. We train every Monday from 18:30 till 20:00 in SC1.

Hardboard is the surfing association in Twente. If there is wind, we take the car, throw in our boards, kites and other gear, and drive to surfing spots. The spots we go to, are mainly in Friesland on the IJsselmeer, but sometimes we go to the sea. During the summer, we wakeboard once a week at Rutbeek, half an hour cycling from campus. As a surfing association, we have all the gear necessary for kitesurfing, windsurfing and wakeboarding. members are able to borrow this material.

Every year there are also some trips: For the long holidays, we have a snowboarding trip and a wave surfing trip. We also have a few smaller weekend-trips every year. These weekends consist of surfing and chilling in- and outside the Netherlands. Most of all: we have loads of fun together!

Besides this, Hardboard has a weekly drink every Thursday night.

DBV DIOK

D.B.V DIOK is a student club that combines sports and social fun at its best. Both for people who have played badminton for years and for people that want to try out badminton for the first time, DIOK is the place to be. DIOK is one of the larger student badminton clubs of The Netherlands and has teams at every level of local and national competition. Throughout the country, we are famous for our traditions of baking cakes at home matches and self-designing our team shirts. Training is given at every level by our famous trainer Ron Michels (who has played at the Olympic Games of 1996). He does not only train the competition teams, but the beginners group as well. Thus, even the beginners will be learning the proper techniques and tactics quite quickly.

DHC DRIENERLO

DHC Drienerlo is the student hockey club located on the campus of the University of Twente. We offer a wide variety of opportunities, ranging from first-line teams to recreational teams, from indoor hockey to various committees to help you enjoy your student life and develop yourself.

The first-line teams train on Tues- and Thursdays, while the recreational teams train on Wednesdays. Sunday is the matchday! Whether teams play at home or at another club, the atmosphere in the Toren (the most extraordinary clubhouse, according to the KNHB) is always great.

Next to hockey, there is a lot more to do at DHC! You can participate in various committees, of which some examples are: organising a large tournament, making sure new students get to know us during the Kick-in, designing gadgets for members etc.

So in short: do you want to discover a new sport, continue to play hockey, develop yourself in various ways and above all: make friends for life? Contact us via bestuur@dhdrienerlo.nl or visit www.dhdrienerlo.nl. See you soon!

H.S.V. High Tech Hitters is the association for base- and softball on the campus. Our teams are made up of enthusiastic people with different levels of experience in base- and softball. There is a very open atmosphere to new members as everyone is welcome and treated equally. New members will be guided by those that are more experienced and the trainers will quickly improve the game of inexperienced players. It is the job of the board to facilitate the trainings and to ensure an open identity within the association. A part of that is the promotion of HTH, which is often done in cooperation with a few very creative members. On top of that, ideas and initiatives concerning social activities are also managed by the board. At the end of the year, a good transfer of knowledge to the succeeding board is of vital importance to keep the association in long term shape.

Messed Up is the student sports association for floorball at the University of Twente. We were founded in May 2005 and have since grown into an association with currently around 35 members. Since we are pretty small, we are the type of organisation where everyone knows everyone, the perks of that are that you can get to know everyone during training or afterwards when hanging out at the Sportscenter bar. If you want to become active within an association, Messed Up might be the one for you. We have several committees to make sure our trainings and everything regarding competitions is running well, we organize several activities during the year, a yearly three-day city trip abroad and a large weekend tournament with visitors from all over the Netherlands, Belgium and Germany. It is also possible to join the board, however it is preferred that you've been a member of Messed Up for a while. In case you are interested and want to check Messed Up out, the best way is to attend one of our trainings:

Wednesday: 19:00 - 20:30, Sporthal 3

Thursday: 21:00 - 22:30, Sporthal 1

S.K.V. Hercules is the first ever Student CrossFit association in the Netherlands. The association consists of about 85 members members. There are three training sessions per week, two in the CrossFit Twente box (on Monday and Wednesday) and Thursdays at the gym or the running track on the University campus.

Trainings in the CrossFit Twente box (a former church and as such one of the most beautiful CrossFit boxes in the entire world!) are given by professional CrossFit and Olympic weightlifting trainers and consist of a combination of weightlifting, gymnastics, and high-intensity WOD's (Workout Of the Day). The trainings on Thursday are given by student trainers and are mainly focused on intensive bodyweight workouts.

Besides training, Hercules tries to bring members closer together by having drinks once every two weeks. Additionally, Hercules provides its members with the opportunity of attending monthly workshops, throwdowns or fun activities to further increase their skills and get to know the other members in a different way.

S.K.V. Vakgericht was founded on February 7 1990 by a group of enthusiastic korfbal players at the University of Twente. Vakgericht currently has 40 members that study either at the University of Twente or Saxion University of Applied Sciences. Being a member of Vakgericht is not only about sports, fun is also very important. That's why we often stay after practice and have a drink with each other. At Vakgericht you can become either a competition member or a casual member. As a competition member you practice one or two times a week and play a match in the weekend. Would you like to play matches but are you not available on the weekends? Then you can play in our midweek (middle of the week) team. Besides this you can also just be a casual member meaning you can practice two times a week. If you want, you could still play a midweek match every now and then. Therefore, you could also keep playing matches with your hometown team and practice here in Enschede.

Our Quidditch is the nonmagical version of the game played in the Harry Potter series. It's a mixed gender sport best described as a mix of handball, dodgeball and rugby (it's full contact). We practice two times a week and participate in the dutch Quidditch league and play friendlies against different teams. Besides that we also have regular social activities for our members to spend time with each other when we are not on pitch.

Football association v.v. Drienerlo is the largest student sport association of Enschede and consists of eleven teams, women and men, outdoors and indoors (futsal). The futsal teams train and play matches on weekdays, the other eight teams train on weekdays and play their matches on Saturday (except for the ladies 7x7 team. They play their matches on Fridays). With a lot of students participating in our internal competitions too, Drienerlo offers a wide range of possibilities to play Football.

To facilitate all this, the club is supported by 14 committees: organizing (international) tournaments, maintaining and adding new functions to the website, promoting the club, maintaining the association van, organising maintenance days or organizing events such as visiting professional football clubs. Most of them accompanied by drinks. For more information, check out www.vvdrienerlo.nl or send an e-mail to bestuur@vvdrienerlo.nl

CULTURAL ASSOCIATIONS

Arabesque is a lively contemporary dance association for students in Enschede situated at University Twente. We offer training/lessons for motivated dancers who are looking for creative challenge in the spirit of contemporary dance. The association gives opportunities for developing creativity, physical awareness and performance skills through classes taught by a professional teacher.

The Musica Silvestra Orchestra (MSO) is the student symphony orchestra of Enschede. Each year, MSO prepares a concert programme twice a year with a couple of concerts as a result. The MSO is conducted by the enthusiastic Peter Bogaert. The orchestra mainly consists of students and employees of the University of Twente and Saxion. We rehearse every Monday evening from 20:00 until 22:30 in the Agora of the Vrijhof. Next to the weekly rehearsals, we organize a rehearsal weekend during each programme. During this weekend, which is usually held at a camping farm, not only the quality of our playing is increased. It is also a lot of fun and a great way for the members to get to know each other better. The concerts of MSO do not only take place in Enschede or at the Campus of the UT. In recent years the MSO has performed in cities Hengelo, Zwolle and Apeldoorn or villages close to Enschede, such as Haaksbergen and Lonneker. The MSO can also be witnessed outside the Netherlands. In the past, we made international concert trips to Tuscany (2011), Krakow (2013) and Glasgow (2015)

Whatever you study, wherever you come from, whatever cultural talents you have, InSPE brings together a diverse group of people who work towards the same ambitious goal of a student production.

Every other year, InSPE (International Student Productions Enschede) presents a collaborative project that is open for all students in Enschede. We do not only include all categories of performing arts (acting, dancing, singing and orchestra), but also 'behind the scenes' talent, such as creative writers and composers, make-up artists, designers and makers of costumes and décor. That way, we improve the bonds between cultural students all over Enschede.

Some of the productions that have been done in this setting are Broadway classics "Jesus Christ Superstar" and "West Side Story". We work with a variety of people and offer opportunities for everyone, no matter your background or interests. Join us now for the next big production!

The Student Wind Orchestra of Twente was founded in 1991. This orchestra, better known as SHOT is connected to the University of Twente in Enschede. On average the orchestra consists of 60 musicians from the university and surrounding universities of applied science.

Since the year 1993, the orchestra is conducted by Ronny Buurink. Since the foundation of the orchestra, SHOT has the tradition to give two concerts at the university campus. In preparation for these concerts, the orchestra traditionally retreats to a small village, to rehearse for almost 20 hours on the pieces. During these rehearsal weekends the ambience is amazing. In addition to the concerts SHOT regularly gives performances in other cities or participates in festivals. Besides performances in the Netherlands, SHOT also visits a foreign festival every two years during a concert tour. In March 2018, SHOT participated in a contest in Zutphen and got the good result of 88,83 points in the first division. This summer SHOT will go on their trip to Prague and Vienna.

Abacus is the study association of Applied Mathematics in Twente. With 600 members it is the largest mathematical study association in the Netherlands. The name 'Abacus' comes from the Chinese abacus. Sometimes you find one in the Netherlands, mostly in eastern shops or restaurants. It is incredible to see how fast one can calculate with it, and the things that are possible to calculate. Even taking a square root of a number is possible with the Abacus! Two goals underlie Abacus: first of all promoting mathematics and secondly improving contacts between mathematicians, for example students and lecturers, but also mathematicians from outside Twente. To reach these goals, Abacus organises a lot of social activities. Such as lectures, excursions, symposia and study trips. These are the "serious" activities, usually organized for and by students, because they share the same passion: mathematics. Next to serious activities, Abacus also organises activities that seem to have to do less with mathematics, like drinks, board game nights, a gala and parties. Still you are with mathematicians and this will show: for example the probability calculations during a poker night.

S.V. Arago is the study association for students of Applied Physics. Arago serves the interests of her members by being the first point of contact between students and the study itself. Arago is an independent auditor of the education quality of the study Applied Physics and serves as a mediator of problems between students and the study. Furthermore, Arago stimulates the labor market orientation and professional development of her students by organizing multiple career activities throughout the year. In the past, many lunch lectures, excursions and trainings have been organized with success. At Arago, we found that our many efforts are fruitful by creating an open and pleasant atmosphere within our association. Often, students who wish to take a break use the couches in our association room. In the adjacent study area, we created a place for our students to continue their study efforts in an open and welcoming atmosphere. By being surrounded by other Applied Physics students, the area is perfect for discussing challenging problems and asking for an extra hand.

S.A. Astatine is the study association for Advanced Technology and Nanotechnology students. Our goal is to cater to the needs of the students we represent. Being the study association for an English-taught study, it is no more than natural that Astatine is an international association. The association is run by a full-time board consisting of six students. There are numerous committees that assist the board with organising activities. These committees consist of students and each committee organises activities with a certain theme. For example, the SportCo organises sport-related activities. Apart from having activities Astatine is also a place where you can come to relax and to socialise with (former) AT and NT students. Having people around you that are doing the same study is also beneficial as they can help you with the problems you are running into. Therefore, as an association we strive to support our members with their study-related problems while also providing them with the much-needed events where you can enjoy yourself together with the others around you.

Study Association Communiqué is the study association for Communication Science and Communication Studies. Compared to other associations we are relatively small with 300 members. Because of this, we are a really close group which we think is a big benefit. You know almost everyone, which is very nice. Communiqué organizes both work field-related and social activities, such as a monthly drink, awesome parties, and interesting company visits. And of course, as a board member you are the point of contact for all students. You can find us in the most beautiful building of the campus: our beloved Cubicus. Currently, we are doing the board year with 5 people, but next year this could even be one more. If you are interested in doing a board year or in general of joining the association, you can always talk with one of the current board members. You find us in Cubicus B105. We are looking forward to meeting you!

ConceptT is the study association for students of Civil Engineering, Civil Engineering and Management (CEM) or Construction Management and Engineering (CME).

Through the study association, students can easily get in contact with civil engineering based companies. ConceptT organizes various lunch lectures, excursions, and workshops through which the students can get to know the work field of civil engineering better.

As a study association, we also focus on the quality of the educational program. ConceptT evaluates the study program in collaboration with the students and the educational board and helps students which have complaints or comments about their study program.

ConceptT also organizes social activities. Some examples of these activities are our trip abroad, a hitchhike contest and a gala. Every Thursday we have a drink in our own pub 'Beneden Peil'. This pub is in the same hallway as our association room (ConceptT room), where you can get free coffee, tea or hot chocolate. In the ConceptT room you can also come and relax or play a game with other members.

S.G. Daedalus is the study association for Industrial Design Engineering at the UT. The study program started in September 2001. Not much later, on the 8th of April, 2002, S.G. Daedalus was founded as new association. Nowadays the association has expanded to a vibrant community with more than 900 members. As a study association S.G. Daedalus aims to fulfil the needs and interests of Industrial Design Engineering students, employees and other stakeholders. This implies that S.G. Daedalus tries to maintain the quality of the education, i.a. by means of discussions and evaluations. Besides, S.G. Daedalus offers its members great opportunities to improve their skills, gain experience and orientate on the professional field. To stimulate the evolvement of Industrial Design Engineering students, S.G. Daedalus tries to inspire its members with all kind of activities. The association organizes lectures, excursions and symposia to get in touch with companies to show students career opportunities and social drinks to relax.

I.C.T.S.V. Inter-Actief is the study association for the studies Technical Computer Science, Business Information Technology and the corresponding masters at the University of Twente. We support our students in the broadest way possible by providing educational support, career opportunities, fun activities and much more.

A study association plays an important role in representing the voice of the students. As such, we handle complaints of students, keep in close contact with the study program, and provide various services. To give students the opportunity to prepare themselves for their career, we organise many activities in collaboration with partners. These activities include lunch lectures, workshops, excursions, and a yearly symposium. Lastly, Inter-Actief aims to make its students feel at home, and thus organises many activities for its students to get to meet each other. These activities can be everything, ranging from LAN-parties to drinks. There is something to do every week!

S.A. Proto is the study association for the bachelor of Creative Technology and the master of Interaction Technology. Our main base is located in the building called the Zilverling, the SmartXp. It's a big space where there is room and equipment (like a laser cutter and 3D printers) to work on projects, but there is also space to work for yourselves. Our association room, Protopolis, is also located there. You can come eat, drink, and hang out with your fellow students when you need to catch a break or when you just need some downtime. It is meant to be a living room for the students, but is also used to study or work on projects.

What can Proto offer the students? As a study association we aim to provide fun but also meaningful activities for the students following the aforementioned studies. We also strive to organise events that are more oriented on developing yourself professionally. We have more than 30 committees that keep this association running, organising fun and useful activities or working more on the background by providing designs, photographers, a working website, and more! If you have any further questions or concerns, please have a look at our website: www.proto.utwente.nl or email the board

Stress is the study association for Business Administration (BA), International Business Administration (IBA) and Industrial Engineering and Management (IEM) of the University of Twente. The association was founded on May 21st, 1974. With over 2100 members it is the largest (study) association at the UT. We organize various activities and events to support, expand and complement all of our studies and the career development of our members. Everything is included from study evenings and trips abroad to cooperations with companies, parties, and excursions.

Stress has five principles, which will greatly enhance your time as a student: Study, Meet, Practice, Develop and International. Following these, several activities are organized by the roughly 124 active members and are partially made possible thanks to the sponsorship and participation of various companies. Moreover, we have regular contact with other business and management study associations across the Netherlands.

W.S.G Isaac Newton is the study association for Mechanical Engineering and is the oldest study association of the University Twente. Isaac Newton is a big association with over 1300 members, of which 170 members are part of one of our 30 committees. Our main task is to support members in their study. We support students among other things by passing their remarks about the study to the program director, purchasing study books, maintaining an exam library or by just having a place to rest in between lectures. We also help students by getting them in touch with companies. This is done by having a lunch lecture every week and by taking excursions to the companies. But also by organizing a big intercontinental tour in which we visit a lot of companies with different cultures. Aside from these tasks, Isaac Newton provides a lot of extracurricular activities as well. These activities include bowling, laser gaming and drinks every Thursday. A lot of these activities are organized by the committees of our association. Additionally, there are some large activities that are organized by the acting board in which all members can participate.

AIESEC TWENTE

Members: No

Boardmembers: > 15

Hours/week: 15-20

Duration: 1 year

Board changes: July

International: Yes

AIESEC Twente is looking for students who want to do a board year AND want to explore the world. AIESEC is the largest international student organisation in the world and is active in over 125 countries. It facilitates exchanges all over the world, in the form of internships or voluntary work. The goal is to give students the opportunity to get to know different cultures and develop themselves in a challenging environment. Besides working together with other associations in Twente, you will get to know AIESEC boards from the other student cities in the Netherlands and work together with student boards located all over the world. With your own board and the AIESEC in the Netherlands network you will have many conferences, parties, trips abroad and trainings from big companies such as Unilever and Deloitte.

We are looking for a new board for the year 2020-2021, consisting of 5-6 full time members and 15 part time members. As a part of your board year you have the possibility to go on an exchange yourself.

BEDRIJVEN- DAGEN TWENTE

Members: No

Boardmembers: 6

Hours/week: 35-40

Duration: 1 year

Board changes: Sept

International: No

Each year, the Bedrijvendagen Twente organizes two months of career related activities in February and March. Our goal is to bring students and companies in contact with each other, so that students can orientate themselves for their future career. A board year at the Bedrijvendagen Twente means you will be organizing the biggest career event of the Netherlands. Together with 5 other students, you will be organizing all the activities of the Bedrijvendagen; from the Career Fair with more than 150 attending companies to the Workshop and Ambition Week activities. It is the opportunity to learn skills you would not acquire during your study. One day you might be busy calling companies to see if they want to participate in your edition, while the next day you could be busy with a promotion activity to tell students what the Bedrijvendagen is all about.

Does a board year at the Bedrijvendagen seem like something you would like to do? Visit our website for more information or drop by our office at Bastille room 301.

B.S.C. DUITENBERG

B.S.C. Duitenberg is the Investment Study Club of the University of Twente and Saxion University of Applied Sciences in Enschede. Currently Duitenberg has more than 180 members. Those members are students with different study backgrounds, sharing the same interest.

It does not matter whether you are experienced or whether you are a beginner, everyone interested in the financial world is welcome. We do our best to meet your interests and also to provide you a great social environment while learning how to invest. You are not required to invest with your own resources at B.S.C. Duitenberg, as the club has its own real portfolio.

Through analysis evenings, lectures, in-house days, company visits and portfolio administration, students have the unique possibility to experience investments and be involved with the financial sector. Aside informative activities, B.S.C. Duitenberg also organizes get-together activities such as drinks, poker and barbecue evenings.

Boardmembers: 8

Hours/week: 15-20

Duration: 1 year

Board changes: Sep & Feb

International: No

We stimulate students to develop themselves in preparation for their careers through various possibilities. Besides this, we organize local and national events like inhouse days, "Techniek op Hakken", and more.

To provide these opportunities to students we approach interesting companies in an effort to find an agreement that is beneficial to them and us students. Through this, you will learn a lot about leading companies and the way they operate.

Besides encountering interesting companies, you can develop yourself in different areas, as we have the ability to switch board roles after half a year. We have several interesting training possibilities with our own board and with all the other Integrad board members in the Netherlands as well.

Integrad is found in all university cities, and all of them along with the national board are operated by students. Thus, you can become part of an exciting and educational part-time board year with a vast network, training possibilities, good ambiance, and fun activities.

UniPartners Twente is een academisch adviesbureau met een kantoor in de Bastille. Wij kijken of bedrijven uitdagingen hebben liggen die een student consultant op kan lossen. De student doet dan onderzoek bij het bedrijf. Als bestuur zijn wij bezig met dat hele proces, bijvoorbeeld bedrijven langsgaan om te kijken of zij projecten hebben, student consultants zoeken, project managen en daarnaast natuurlijk het besturen van onze stichting. UniPartners heeft nog 11 andere vestigingen in Nederland en wij hebben ook regelmatig trainingen, cases en weekenden met de andere bestuurders. Hierdoor leren we veel over het runnen van een eigen bedrijf en kunnen we binnen kijken bij veel interessante bedrijven! Als dit jou wat lijkt of heb je nog vragen? Kom dan een keertje bij ons langs op kantoor, op de 3de verdieping van de Bastille!

The Negotiation Project Twente (NPT) is a non-profit organization connected to the University of Twente, in Enschede. We strive to teach valuable negotiation and communicational skills to students and organizations. We also aim to disseminate hard and soft skills to (future) professionals by bridging higher education and the business environment. Furthermore, NPT attends yearly international events in which we represent our University through global negotiation tournaments. These events include The Negotiation Challenge and Warsaw Negotiation Round, where participants of our training program are selected yearly. At the same time, we are currently looking to organize the first Dutch Negotiation Challenge, at our University of Twente, 2021.

AEGEE-Enschede is an open Student Association. This means that the association does not have a obligatory introduction, (ontgroening) and you can become a member all year long. After the Kick-In we organise the HAIP; during fun activities, organised by one of our many committees, yearclubs or sororities and fraternities, you can get to know AEGEE-Enschede better. And we get to know you as well! Be sure to come by!

Every Tuesday and Thursday our members go to our pub Asterion in the Pakkerij. Members take part in yearclubs, fraternities, fellowships and committees to built friendships and improve their skills. You can improve your skills in our multiple committees, like the Summer University we organized last year. A Summer University is a vacation for around 25 students from all over Europe, with some serious content, but also parties of course. The Summer University committee organized a two week program filled with ways to get to know Dutch culture, this was appreciated and landed us in the top 10 of best Summer Universities of AEGEE-Europe. Another way to be active

C.S.V. ALPHA

We are a christian student association, open for both christian and non-christian people. Our most important values are friendship, depth (in faith and personal life) and responsibility. We have various activities which contribute to one or more of these values, i.e. Bible studies or our weekly drink on Thursday evening. We have several committees in order to make these activities possible. Doing a committee or being part of a board is a very valuable experience, since you learn skills that you don't learn during your study.

De RSK is een toffe, christelijke studentenvereniging. Met onze 60 leden zijn we zeer hecht en ken je iedereen in een mum van tijd. Samen ga je het studentleven in en mogen we Gods woord onderzoeken. Wij doen dit door wekelijks de Bijbel open te slaan met kring. Kring is dan ook de belangrijkste activiteit van de RSK waar we groeien in ons geloof en elkaar kunnen helpen met vragen waar we mee rondlopen. Daarnaast organiseren we lezingen, verenigingsmaaltijden en praise & prayers. Verder hebben we ook veel gezelligheidsactiviteiten zoals verenigingsweekenden, sportactiviteiten, huisfeesten en doen we mee met de batavierenrace. De RSK is uniek in zijn soort. Het is de enige vereniging die deze naam draagt en daar zijn we trots op. We zijn buitengewoon lid van C.S.V. Ichthus en hebben banden met C.S.F.R.. Deze unieke combinatie maakt het mogelijk om elke christelijke student op zijn plek te laten voelen. We staan altijd open voor gasten, dus kom gerust een keer langs bij één van onze activiteiten. We zien uit naar jouw komst!

A3T - Aerobic Tech Team Twente is the youngest student team at the University of Twente. We have been working with a group of 25 members for at least a year on drone technology! We believe that personal development and education are the most important tools to change the world. This is why we want to give students the opportunity to develop themselves while also sharing their knowledge with the outside world.

As a team we focus on one main competition, but we also have side projects that align with the main goal. Within these projects you can fulfill a multitude of roles:

As a member you could work on your own projects, give workshops to schools/students/companies, present at events, manage an awesome team, make videos, develop a business strategy, work on our branding, manage finances, talk to companies and everything else that any student team would need to function. If you're eager to know more about us, visit us at our stand and check out our website!

Every year at the end of april the starting shot for the world's largest relay race, the Batavierenrace, can be heard. It starts in Nijmegen, goes through Germany, the Achterhoek, the Oude Markt and finishes on the campus of the UT. The total distance amounts to 175 m and is divided in 25 stages. With an average of 8000 participants, the Batavierenrace has fortified its position in the Guinness book of world records. After the finish, the biggest student party of the Netherlands starts on the campus of the UT. The organisation of the race and party is a challenge indeed. That is why every year we search for 10 students, divided in 2 groups of 5 over Nijmegen and Enschede, who are up to this challenge! One would say it seems simple as the race stays the same every year. Apparently, this is not the case. With every year, the organising committee leaves its mark with its own policy, the route can be changed for one reason or another, facility options increase or decrease and sponsors have to be convinced to collaborate with us. The challenge is yours!

Why would you be reading this? Or this? There's no good reason for it, unless you're interested in meeting people from all over the world. Still reading? Here comes the catch. Connecting Hands at the UT aims to create a strong network for refugees, asylum seekers, students and Dutch people. 'Aha that's nice. But how?' To achieve this, we organize events to bring people with different backgrounds together to have fun, to meet new people, to grow and to improve their hard and soft skills. 'Okay, sounds a little bit vague. But how could I contribute to this cause?' You can join our sports-, culture-, education- and women committee and organise activities. For example a volleyball tournament, cooking workshop, job interview training or dance class. Just how you like it. 'Mmm I'm considering it. But still I need to find more time.' That's no problem. Just take a look at our website, Facebook and Instagram (@connectinghandsut). And feel free to attend one of our events because it makes you cycle home with a smile.

During a two-day event, Create Tomorrow brings together over a 1.000 students, innovative companies, researchers and other bright minds. The first day of Create Tomorrow 2020 is named Explore Tomorrow! On the 23rd of April, we explore the challenges that we face within 4 central themes. We let the participants get in touch with people who inspire them on new perspectives and replace their study books with real challenges within the sustainable development goals. Day 2 is all about the world's largest student think tank. 1.000 students work together within teams on a company's case and have the chance to win amazing prizes by creating the best solution to one of the cases. During the think tank, students are surprising the companies with their innovative ideas and solutions while they will be kept sharp by the best entertainment and energizing activities! After the event, the best ideas will be realized by our follow-up program guided by Novel-T!

The association Studenten Net Twente represents her members on the subject of network facilities. We do this by providing a helpdesk where users can come by with their questions and problems. Support is given on campusnet, WLAN and VPN connections to the university.

Thanks to the knowledge of our personnel at the helpdesk we manage to solve most problems right away. To facilitate our members on campus we maintain a webserver, an IRC-server, a Matrix server, a GitLab instance and a personal back-up service. We also provide colocation for game servers of members.

For associations and other organisations on the campus we also offer webhosting through our new Hornet platform and a (virtual) Colocation. All these services are maintained by a group of volunteers who use the experience at SNT to broaden their knowledge.

If you would like to know more, or experience a work evening with our volunteers, email to: bestuur@snt.utwente.nl.

Solar Team Twente is a multidisciplinary team that designs, builds en tests their own solar powered car. We participate in the Bridgestone World Solar Challenge 2021 in October that year. We race >3000km through the harsh Australian outback to promote sustainable transportation!

Besides the technical challenge of creating the most efficient solar car ever, the team fully operates on itself. Partners, financial matters, transport, team building, marketing and communication are part of this adventure too!

Take on the challenge and apply for team 2021!

IAPC is an on-campus store which sells (mostly) ready-to-go computer parts. We can stay cheap because we are fully run by volunteers and have a low operating margin. As our focus is not on profit, we have less to worry about selling expensive parts. Our cooperants (members) help with every part of running the store. We have a lot of committees ranging from PR to our own, in house developed Sales Software committee! You are always free to walk in and ask for information, that's what we are here for in the end!

Sustain is a new student association on campus in its second year, focused on improving sustainability on campus in a down-to-earth way, by inspiring students to come into action for the environment and sustainability. The association consists out of a board, working groups, and committees that are all focused on organizing events to promote sustainability or act as an advisory body to ensure events become more environmentally friendly in many different ways. This is done by working together with other associations, such as the Kick-In and the Veste, advising them to reduce waste and other such measurements. In the future, we hope to expand our network, serving as a platform for all associations to make the whole UT more sustainable.

Space Society Twente is a student association with an ambition to reach for the stars. We aim to achieve this by means of various projects, such as the development of a CubeSat, participation in hackathons and hosting NASA's International Space Apps Challenge. The two core philosophies of Space Society Twente are that anyone can be involved in the opportunities and challenges of space engineering, and that space itself needs to become more accessible to research and industry. As such, members of our association often attend excursions to space-related companies, guest lectures, movie nights and other social activities.

The WOT is an organization with a passion for technology and development. We design, test and build extremely affordable technology for use in developing countries. Projects that we are working on or have worked on include the testing and redesigning of a plastic water pump, the renovation of a wooden windmill on our terrain, the redesign and production of a solar powered shower and the research into and testing of an air pump-based well drilling method.

We meet up weekly to work on projects and to have dinner together. Often the evening ends around the campfire with a drink. Next to the weekly sessions other events like courses, lectures and working weekends are organised. Also for more than 40 years we have organised an annual course week aiming to educate technical knowledge to doctors that want to work in developing countries.

The WOT is a close group of people consisting of students and non-students. People tend to stick around for a very long time. Anyone with a heart for purposeful technology will feel at home here.
