

How to add Artificial Intelligence Expert keywords

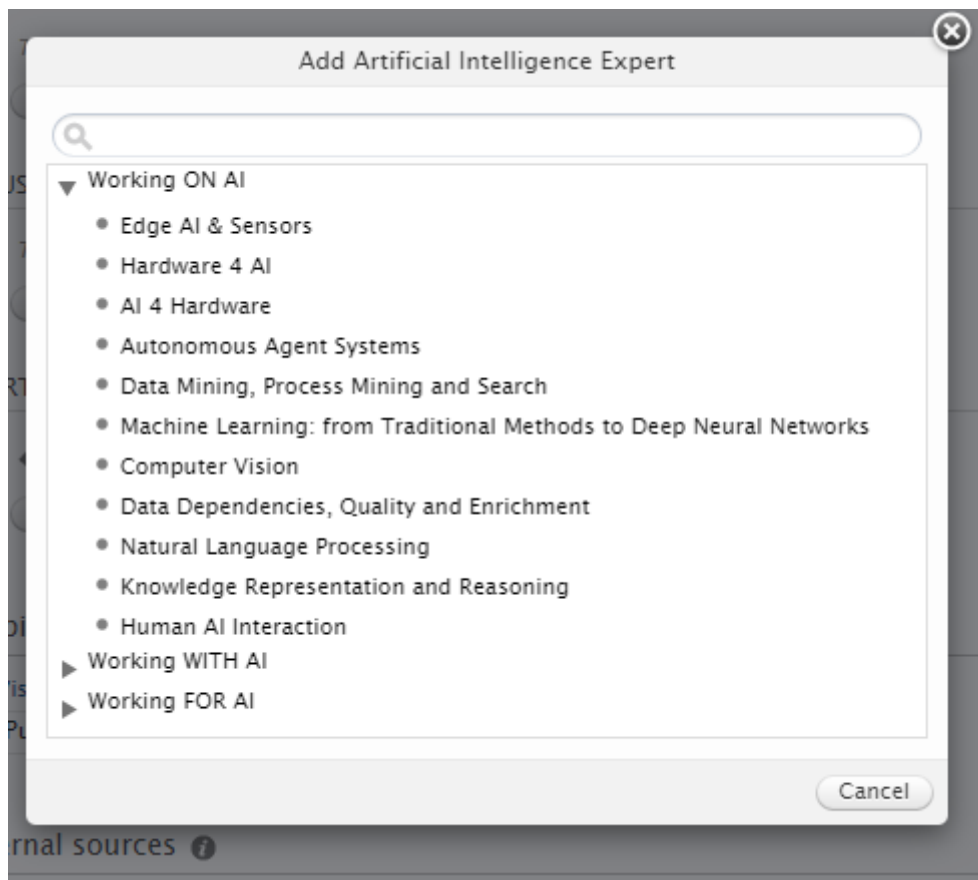

- Select 'edit profile' in the personal overview page.

- In the 'Keywords' section, click the option 'Add Artificial Intelligence Expert'

- Choose one or more Artificial Intelligence Expert keywords in the pop-up screen.

- It is possible to change the order of the Artificial Intelligence Expert keywords in your profile by clicking on the arrows behind the keywords.

- When done completing the form, click Save at the bottom of the screen.

General principles

He articulated the principle of relativity. This was understood by Hermann Minkowski to be a generalization of rotational invariance from space to space-time. Other principles postulated by Einstein and later vindicated are the principle of equivalence, general covariance and the principle of adiabatic invariance of the quantum number.
