Corona game rules

What measures must you and your housemates take in student houses?

Measures

Stick to the basic rules

- Keep 1.5 meters away from others.
- Wash your hands regularly and cough and sneeze into your elbow.
- Work at home as much as possible.
- Avoid crowds.
- As far as possible travel outside peak hours.
- Wear a mask in indoor public areas.

Measures

You

You must stay at home until the result is known.

Your housemates

Housemates must pay extra attention to any complaints and handle social contacts responsibly. After all, they have been in contact with a potential corona patient.

(2) symptoms

Cold symptoms, cough, breathlessness, increase in fever, sudden loss of smell and/or taste.

Mandatory test

You

You stay in isolation. The GGD will contact you.

Your housemates

Housemates go into home quarantine.

Explain what is mean by isolation.

Explanation of terms

Home quarantine

- Stay at home for 10 days. This period starts from when you last had contact with a person who tested positive.
- You are not allowed to leave the house.
- Get other people to do your shopping for you.
- You are allowed to sit in your garden or on the balcony.
- No one is allowed to visit you, except for medical assistance.

Isolation

- A minimum of 7 days in isolation, starting from your first day of illness. Once you no longer have complaints you must remain in isolation for a further 24 hours, after which time you can go out again.
- You are not allowed to leave your room.
- Get other people to do your shopping for you.
- Use a separate toilet and bathroom from others (if possible).
- No one is allowed to visit you, except for medical assistance.

Questions?

Do you have questions about coronavirus? You can find more information on the Rijksoverheid website (rijn.nl) or call the public information number on 0800 - 1551. This telephone number is available daily from 08:00 to 22:00.
