

How many years have you worked for EMI?

26 years – since EMI started

What is your favourite part of your day/job?

Job - The diversity

Favourite task – SEM (Scanning Electron Microscopy)

What is your role within EMI?

Vliegende keep! Trouble shooter. General go-to person for expertise.

How has your function changed over time?

It has evolved from mostly supporting other people to doing independent research. Also, from knowing nothing about membranes to becoming an expert in membrane formation and characterization.

Which skill have you learnt in your job that you can apply outside of EMI?

Being more confident in my own abilities.

What is the best thing about the next project you'll be doing?

Membrane formation

Describe yourself using 3 or 4 words

Modest, perfectionist, attention to detail, supportive

You're a new addition to the crayon box. What colour would you be and why?

Blue – I don't want to really stick out of the crowd but want to be as supportive as I can; to be made use of.

Do you feel challenged?

Yes! Still, every day.
