The background is a solid black field. Overlaid on this are several light blue, low-poly, geometric shapes that resemble crystals or ice fragments. These shapes are scattered across the frame, with a larger one in the lower center and several smaller ones towards the top and right. A series of thin, white, wavy lines flow horizontally across the middle of the image, creating a sense of movement and depth. The text 'WEBSITE PSY' is positioned on the left side, partially overlapping the wavy lines.

Welcome to the Compassionate Technology course!

To avoid wrong information on dates and times of classes there is no information here on the Canvas site on where and when classes are taking place; always check cloud.timeedit.net/nl_utwente/web/ for that.

Please keep in mind to always sign up to the most recent Canvas course of Compassionate Technology, so you have accurate information on the exam material. The most recently updated version of the exam material also applies for students doing a resit in a later semester than the one in which they took the Compassionate Technology course originally.

Written Exam

Please note: The written exam takes place during week 6 of the course. This is a change from early editions of this course. This change was made based on the course evaluations from your fellow students, so that the exam and the assignments are more spread out over the course, and so that there is more time between the Compassionate Technology exam and the Positive Clinical Psychology exam. For the exact exam date, please check the "Course summary" below.
