

# 5 BEST PRACTICES

## BY AND FOR UT STUDENT ASSOCIATIONS

### 1. EMBED SUSTAINABILITY

Make a (board) member responsible for sustainability  
Set short- and long-term sustainability goals: define your legacy and pass it along  
Communicate about sustainability goals and progress with members  
Put sustainability on your board agenda

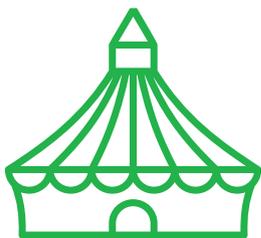

### 2. SAVE ENERGY AFTER OPENING HOURS

Create a clear, motivational closing procedure and keep it up-to-date  
Place closing procedure in sight (e.g., behind the bar)  
Ensure at least one experienced member is involved in closing  
Get inspired by closing procedures of other associations

### 3. COMMUNICATE STRUCTURALLY

Meet your building's UT contact person  
Schedule fixed moments with your contact person to discuss sustainability and safety  
Ask your contact person for help on sustainable solutions (e.g. radiator foil, procedures)

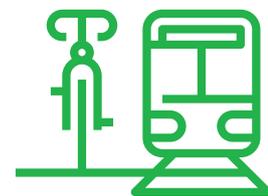

### 4. REINVENT YOUR EVENTS

Invest in reusable cups  
Offer sustainable food options  
Get inspired by UT's sustainable events guide  
Apply for the Green Hub's Green Certificate

### 5. MAKE SUSTAINABLE TRANSPORTATION THE NORM

Carpool with each other and nearby associations  
Travel by public transport  
Choose destinations you can reach in a low-impact way

BECAUSE WE WANT **SUSTAINABILITY** TO BE  
A **PRECONDITION** FOR EVERYTHING WE DO
