

Position: Entrepreneurial students for Biotech start-ups

Apply to the fellowship and explore the start-up potential of Biotech research!

Your mission: validate the market opportunity of the most promising Biotech research of University of Twente.

What's in it for you?

1. **Gain hands-on experience** in transforming technology into a potential business.
2. **Develop entrepreneurial skills.**
3. **Get paid** when you continue in the second phase of the fellowship.

We are looking for students with a passion for biotech entrepreneurship- and research, a willingness to learn and to take initiative.

Scan for more information and apply as soon as possible, but **before March 14th**. Missed the deadline? Email r.dommerholt@novelt.com
