

Advanced Technology

Approval course list (cohorts 2013 and later)

In accordance with article 5 of the program specific part of the Education and Examination Regulation (OER BSc AT, version can be found at <https://www.utwente.nl/at/general-education-information/rules-regulations>), approval is requested from the Examination Board for the following course list.

Name¹ :

First and middle name :

Student number :

Date of birth :

Place of birth :

Telephone :

This is a new / modified² course list.

If this is a modified course list, the previous list was approved on date:

After graduating from Advanced Technology, I expect to be admitted to the following Master

Faculty :

Master programme :

Track :

This request for approval of the course list is part of the administrative process of graduation. Approval for the bachelor assignment has to be requested from the examination board at least one month before the start of the assignment. After fulfilling all requirements for the bachelor diploma, a formal request for graduation has to be presented to the examination board.

¹ Please fill out this form and sign. Forms that are filled out by hand are not acceptable.

² Please indicate if this is a new course list or a modification of a previously approved course list.

Appendix 1. Course list AT-Bachelor (cohorts 2013 and later)

Please check course codes and names and adapt when necessary, remove EC's when not applicable.

Code	Course name	Planned / completion date	EC	Grade
------	-------------	---------------------------	----	-------

B1 mandatory courses

B2 mandatory courses

B3 courses. Please check the box if the course is mandatory for admission to the master program ^{1, 2, 3 and 4}

201600140	Bachelor Assignment		15	
Total number of EC's should be at least 180 EC				

Additional courses (not part of the bachelor exam) ⁴				

If necessary continue the course list on an additional page

1. The number of credits required for admission to the Master's programme is usually not more than 30 EC.
2. You have to request approval of the examination board separately for your Bachelor-assignment.
3. In order to qualify for the BSc diploma, the student has to submit a formal "request for graduation" to the examination board, in order to officially graduate and receive the diploma.
4. Apart from the courses required for the bachelor exam (at least 180 EC) there may be additional courses. These additional courses are not included in the graduation decision or awarding the "cum laude" qualification.

Appendix 2. Admission agreement to the Master programme

Filling out this is not required for processing the request by the examination board. However, it can be useful for determining the admissibility to the master programme. It also serves as a way of formalising the agreement between student and master programme.

Student Name :

Given names (full) :

Date of birth : Place of birth :

Student number :

The BSc. diploma Advanced Technology, with the course list as specified in appendix 1, is sufficient for admission to the following Master programme (and limited to the track, when relevant):

In addition to the course list, the student may be subject to other requirements for admission to the above mentioned MSc. programme. These additional requirements are specified below.

(Program name)

(Track name, when relevant)

This agreement between the student and the Master programme, as mentioned above is part of the course list approval form and only applies to the course list in that form. On completing the BSc. program Advanced Technology with the course list in the appendix 1, the student is admissible to the MSc. programme.
