

INFORMATION SHEET & AGREEMENT FORM

Dissertation Abstracts International—Section C (Worldwide)

BACKGROUND & PRODUCT INFORMATION

Dissertation Abstracts International A and B

Dissertation Abstracts International (DAI) is an unparalleled and well-established information service for dissertation literature. *DAI* is divided into two sections, namely Section A (Humanities & Social Sciences) and Section B (Sciences & Engineering). *DAI-A* and *B* list over 3000 dissertations each month, most of them from North American and British institutions. Full manuscripts are microfilmed and made available for sale. The author or university pays a fee for this service.

DAI Section C

The purpose of *DAI-C* is to enhance the value of the *DAI* service by increasing its worldwide coverage and thus respond to the recognized need for an expanded source for dissertation literature. *DAI-C* publishes abstracts *free of charge*; full manuscripts are *not* microfilmed or made available for sale. *DAI-C* is an announcement service only, but the quarterly issues are distributed widely.

Section C is devoted to dissertations from throughout the world in all disciplines. Publication started in 1976 and is quarterly. The internal organization of material within Section C is by subject and each issue includes author and keyword indexes. For all titles, including those in foreign languages, English keywords are used for the generation of the subject indexes to avoid dispersing synonymous terms (e.g., railway, chemin de fer, Eisenbahn, ferrovia) throughout a single-sequence index or creating more than one index sequence. A cumulated author index is issued at the end of the volume year. Beginning with 1988 issues, *DAI-C* data is also included in *Dissertation Abstracts Online* and *Dissertation Abstracts Ondisc*.

Benefits of Contributing to DAI Section C

The results of much of the research carried out at institutions of advanced education are embodied in doctoral dissertations, and it is in the interests of authors, librarians, and other academics, including post-graduate students conducting doctoral research, that information should be disseminated concerning recently completed doctoral research. The *DAI* system has been developed to achieve this end, and Section C has adopted all of its features. The chief benefits of the system are set out below:

Bibliographic Control—Full bibliographic details are given; author, title, date, institution and, where known, number of pages.

Abstracts—A second level of depth is provided by abstracts, which enable researchers to decide whether the consultation of a complete text is necessary for their own work.

Complete Texts—Information is given on the availability of copies of dissertations, whether by means of an order number if published by University Microfilms Inc. (UMI), by mention of an institution holding a copy, or by details of previous publication.

Subject Access—A keyword indexing system is employed to offer subject access to dissertations recorded. Since a doctoral dissertation is normally the author's first significant contribution to knowledge, this is a more useful tool than author indexes alone.

Current Awareness—Even the most comprehensive reading and the most cultured "grapevine" cannot guarantee that a researcher is always up to date. *DAI* offers assistance in a sometimes elusive sphere of literature.

To the above, which are valid for authors and users alike, one may also add, from the author's point of view, a sense of satisfaction that his/her work is being properly noticed and will be readily accessible to other researchers.

UMI

Submission of Abstracts for Publication in DAI Section C

Eligibility

Any person from a recognized institution may submit abstracts of doctoral dissertations for publication in *DAI-C*, subject only to having the authority to grant the appropriate permission mentioned below. While a major objective of *DAI-C* is to provide a current awareness service, no limitation is imposed on the age of abstracts submitted.

Procedures

We have established certain basic procedures, which we request persons submitting abstracts to *DAI-C* to follow. Submission of abstracts for publication in *DAI-C* should consist of the following in respect to each dissertation:

1. The abstract itself. It need not necessarily be an abstract produced by the author of the dissertation. Double-spaced typing on 8 1/2" x 11" paper is preferred. Recommended length is 250 words. Under no circumstances can abstracts exceeding 350 words be accepted for publication. Diagrams may not be included. The publisher reserves the right to edit abstracts. As a safeguard, please remember to note on the abstract sufficient data to identify the dissertation to which the abstract relates.
2. A completed UMI dissertation agreement form, duly signed in the appropriate place by the owner of the copyright of the abstract. This form sets out basic data concerning the dissertation, including a classification category and indexing terms additional to keywords used in the title, if deemed necessary. The form also grants UMI permission to publish the abstract and must, therefore, bear an authorized signature. The owner of the copyright of the abstract, if it is the author's abstract, will usually be the author of the dissertation or the degree-granting institution.
3. A copy of the title-page of the dissertation. This is a means of double-checking information and may help to solve questions and eliminate the need for correspondence.

Language

We recommend that for maximum exposure worldwide, abstracts should be submitted for publication in English, or one of the more widely known European languages, such as French or German. Abstracts in other Roman alphabet languages will, however, be published as submitted, although we may not always be able to proof them adequately.

AGREEMENT FORM

- Item 1: *Full Name.* This should be identical to the name on your title page. Your last name will be used to access your dissertation in indexes.
- Item 8: *Titling your dissertation.* Your dissertation can be a valuable reference and research source for scholars, providing it can be retrieved easily. All doctoral dissertation titles are entered into a computer for production of keyword indexes. It is, therefore, of the utmost importance that an English translation of the title be provided and that the translated title of your dissertation be meaningful and descriptive of its content.
- Item 9: *Subject category.* Select the 4-digit code that best describes the subject of your dissertation.

FULL DISSERTATION PUBLISHING

Publication of a complete dissertation is an optional extra service for which UMI charges a nominal publication fee to cover the cost of creating, processing, and storing a master microfilm.

If you would like to have your manuscript microfilmed and the abstract published in *DAI-A* or *B*, please write for full publishing and pricing information.

Note: Supplies of these information sheets/agreement forms are available on request.

**AGREEMENT FORM
DISSERTATION ABSTRACTS INTERNATIONAL (SECTION C)
DOCTORAL DISSERTATION ABSTRACTS**

IMPORTANT: (a) Please read notes and instructions on page 1 before completing and signing this form.
(b) Please use typewriter or print with black ink.
(c) Please remember to attach the abstract and a copy of the dissertation title page to this form.

PERSONAL DATA

1. Full name _____
(last name)

_____ (first) _____ (middle)

2. Year of birth _____

3. Country of citizenship _____

4. Present mailing address

Future mailing address

Effective date _____

DOCTORAL DEGREE DATA

5. Full name of University conferring degree

6. Abbreviation for degree awarded

7. Date degree awarded _____

DISSERTATION DATA

8a. Attach a copy of your dissertation title page to this Agreement Form

8b. Additional keywords (not in dissertation title) for database access

1. _____
2. _____
3. _____
4. _____

8c. English translation of the title if original not in English

9. Subject Category for dissertation. Enter 4-digit code from list.

--	--	--	--

10. Language of text (if other than English)

11. Number of pages _____

AVAILABILITY DATA (Published Dissertations)

12. ISBN (if Assigned) _____

13. Publisher's name and address

AVAILABILITY DATA (Unpublished Dissertations)

14. Location where a copy is available for consultation

ABSTRACT ONLY PUBLISHING AGREEMENT

I, the undersigned, being the copyright owner of the abstract of the above-mentioned doctoral dissertation, hereby grant to University Microfilms Inc. permission to publish and disseminate the abstract of the above-mentioned dissertation.

Signature _____

Date _____

SUBJECT CATEGORIES

DAI-C is arranged by broad, general subject categories. Please select the one subject which most nearly describes the content of your manuscript. Enter the corresponding four-digit code in the spaces provided in Item 9 of the Agreement Form.
