

Additional transitional arrangement AM BSc programme

September 28, 2020

Transitional arrangements

(To be added to the programme specific section of the EER 2020-2021 for the Bachelor's Programme in Applied Mathematics.)

1. A student of cohort 2017 and earlier who completed the former module 4 Fields & Electromagnetism (consisting of the parts Vector Calculus, Electromagnetism, and Project; 5 EC each), and completed Presentation Skills separately, will follow Module 5 with Prooflab Revisited: Diversity in Cultures replaced by Presentation Skills.
2. A student of cohort 2018, who has not completed the module Fields and Electromagnetism but has completed the Presentation Skills part and the project in 2018-2019, has to follow the remaining parts of the current version of module 3 except for Introduction to Programming (former Mathematica).
