**4. Proportion EC's in master AM**

Last year we have chosen to move the course Nonlinear Dynamics to quartile 2A to accommodate students who were rightfully complaining about the study load. It turns out that this leads to a program that has again heavy load, but now in 2A. This discussion so far has resulted in deadlock, so I forward it to the Programme Committee for discussion. For your convenience, the overview of the fourth year can be found at <https://www.utwente.nl/en/am/programme/am-2017-2018.pdf>
