SUBJECT
Teaching- and Examination Regulations (OER) M-AM 2017-2018

The OLC-TW advises positively regarding the general EEMCS and AM specific Teaching and Examination Regulations 2017-2018 if the points below are addressed.

General TER EEMCS:

Page 1, General, 1st paragraph: For readability, after the abbreviation TER, the Dutch name for the OER should be added.

Page 10: Article 2.5.4: The words "any" and "existing" should be removed.

Page 11: Article 2.5.5: The Dutch and English term for UT Claims should be swapped in order.

Page 12: Article 3.4.3: The words "at least" should be added, as some people do more than 120EC.

Page 15: Article 4.1.4: The words "Blackboard" should be changed to "Learning Management System" as Blackboard will be phased out next year. This should be changed throughout the entire document. In Article 1.2 Definitions, this may be specified.

Page 16: Article 4.6.1a: The word "decide" should be changed to "determine".

Page 16: Article 4.5.4: There is a discussion about this rule. The rule is not widely known at present, and the Programme Director mentions the faculty council tried to remove it from the document the last time as it is not obeyed in the current situation. The TER should not change regarding this point, but we advice to discuss it during the next AM Education day at the 16th of June.

Page 17: Article 4.7: It is not allowed by law to invalidate exam results after 6 years. Therefore, this cannot be included in the OER and the entire Article should be adapted.

Page 18: Article 5.3.2d/e: "9.0" and "6.0" should be changed to "9" and "6" as all grades are rounded already and half grades are not allowed.

Page 19: Article 7.1: This is unnecessary as it is already stated in the definitions. To avoid confusion, it should be removed here.

TER Master AM:

Overall: We suggest to have a native English speaker checking and updating the document to improve

the style.

Page 3: Article 2.1: "social context" should be replaced by "societal context".

Page 3: Article 2.1: "Researcr" should be replaced by "Research".

Page 3: Article 2.1: "combined or separately" should be removed.

Page 4: Line 3: "on hand" should be replaced by "at hand".

Page 4: Article 3.1.3: "In some cases" should be removed.

Page 4: The bottom URL is wrong and should be "elo.mastermath.nl" (also on page 5)

Page 5: The two paragraphs starting with "Alternative academic programs" ending with "UGM-UT in Mathematics" should be combined in to one summarizing the two, and possibly more, alternative. This avoid the "Yet another alternative". In the revision, the maximum number of months mentioned should be removed.

Page 6: The course code for "Infinite Dimensional Linear Systems" should not be bold.

Page 6-7: Article 4.3 & 4.4: The word "Students" should not be capitalised.

Page 8: The addition "in the first year" might be unnecessary. We suggest to remove it.

Page 8: Article 4.6: The sentence with "While following" should be rewritten. We note that OSIRIS (course descriptions) mentions different dependencies for 201200155 and 20150021, and hence these should be adapted.

Page 8: Article 5.2.1: The general TER mentions a different time schedule, e.g. three months in general and no exceptions for abroad, while this states 6 and 12 months, respectively. This should be fixed for consistency.

Page 9: Article 5.4.1: The correct names for company mentor and AM traineeship mentor should be used, like they are in the ROMP OER.

Page 9: Article 5.5: "THE" should be replaced by "The"

Page 11: Article 8.1.6: Like in the ROMP OER, the 6 year period for exam results should be removed. Furthermore, replace "agreements" by "provisions"

Page 12: Article 8.3: "2016" should be replaced by "2017".

Kind regards,

Hil Meijer
chair Programme Committee AM
