SUBJECT
Join-in Minors

The Programme Committee has considered the list of minors eligible for Applied Mathematics students in the second semester. We think the extension of options for minor programmes is a good development, and give a positive advice for this list.

On the other hand we would suggest to inventorize what our AM-students choose as minors, and to ask for feedback which modules seem to fit our programme best. This may help future students in making better choices. Note that this is not meant to assure the teaching quality of these modules.

Kind regards,

Hil Meijer,
chair Programme Committee AM
