SUBJECT
SEQ evaluations item 3.5

The evaluations of the modules in general show that students appreciate the programme.

Nevertheless, we find it striking that for nearly every module there is a low score in the SEQ-evaluation for item 3.5 "In the module I was given the opportunity to decide what to learn (pursue my own interests within the module context)". We recommend the programme to invite an external education expert, e.g. from CELT, to discuss the project design with each module team. Such discussions may help to get a fresh look on how students may shape their project themselves.

Kind regards,

Hil Meijer,
chair Programme Committee AM
