UNIVERSITEIT TWENTE.

To: Dr. J.W. Polderman, Programme Director AM

From: Programme Committee AM (OLC-TW)

FACULTY OF ELECTRICAL ENGINEERING, MATHEMATICS AND COMPUTER SCIENCE
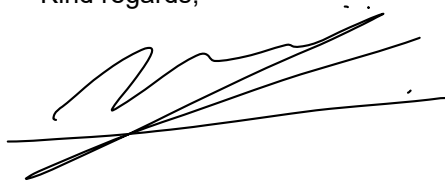

SUBJECT
Learning Goals of AM-Module 7 Discrete Structures and Efficient Algorithms.

The Programme Committee has discussed the proposed removal of the learning goal regarding writing a project paper. The PC understands the pragmatic reasons for this proposal, but students indicated that this has been typically the main task for AM-students within the project as CS-students were mostly responsible for implementations.

So while we agree with the removal, we also ask to critically evaluate the effect on the involvement of the AM-students in the project and report that to the PC.

Kind regards,

Hil Meijer,
chair Programme Committee AM
