UNIVERSITEIT TWENTE.

To: Prof.dr. A.A. Stoorvogel, Programme Director AM

From: Programme Committee AM

FACULTY OF ELECTRICAL ENGINEERING, MATHEMATICS AND COMPUTER SCIENCE

SUBJECT
Course descriptions Algebra and Algorithmic Discrete Mathematics

Dear Programme Director,

The PC-AM finds it a pity that we received the documents so late, and that we had to discuss changes for which we have right of consent, while they were already implemented.

The proposal is to drop two specific learning goals (generating functions and Burnside's theorem), and after some discussion, the PC-AM decided to give a positive advice regarding the proposed changes. On the one hand, we regret that some teachers do not see the overarching goal of a programme where crosslinks such as generating functions are created by treating topics from multiple perspectives. On the other hand, we appreciate the effort in that the descriptions were taken care of to match the content better.

Best regards,

Hil Meijer
Chair PC-AM
