SUBJECT
Advice Evaluations of the MSc programme

The OLC Applied Mathematics has serious concerns with evaluation of MSc courses. The OLC has received a very large document, which included information on all students and all courses at EWI. It was extremely difficult if not impossible to filter out the relevant information concerning the AM students and the courses they followed. In order to be able to perform its role as an advisory body, the OLC needs to receive evaluations that satisfy the following requirements:

- The information on the AM programme must be filtered out.
- It must be clear and visible from the evaluations what was the experience of the AM students with the courses they followed.

The OLC urges the Management Team to improve the way MSc evaluations are reported.

With kind regards,

Nelly Litvak,
Chairwoman OLC-TW
