

EE-BSc – Meeting for the Elective module 7

Jorien Berendsen – BSc Coordinator

Content

- Welcome
- Don't forget to fill in the NSE
- Minors
- Module 7A/7B
 - Device Physics
 - Network Systems

ELECTRICAL ENGINEERING: EVALUATIONS

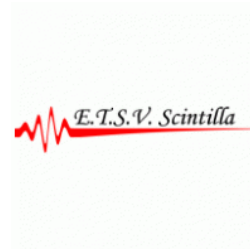

There are many, many, many evaluations

- SEQ after each module
- OKC/OLC lunches
- Module evaluations
- NSE

Each evaluation has its own task.

Problems with a module/course:

- OKC – OLD
- SEQ
- or just .. go to the Studi of Scintilla (they'll contact OKC/OLD)

ELECTRICAL ENGINEERING: EVALUATIONS

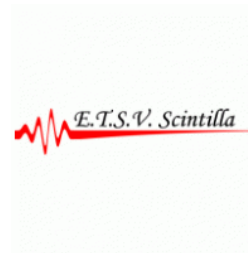

The goal of OKC/OLC/OLD/SEQ/Stoel:

Improve the study

Make you as valuable as possible

Make it a really great education

- (M1 material)
- (M2 material)
- (Mx labs)
- (M4 revamp)
- (M8 new setup)
- (M11 more to the point)
- (M12)
- Ethics Movie nights
- Philosophy of Science renewed
- ...

ELECTRICAL ENGINEERING: EVALUATIONS

NSE

- The scope of this evaluation is for your **entire student experience** at the EE program at the UT.
- So, **not meant** for helping us improving the modules or complaints about specific parts of the module (that is Studi/OLK/OLC/SEQ!)

The NSE is used for various score lists in the Netherlands (for instance the Elsevier Keuzegids)

NSE National Student Survey

- Share your opinion (open 19 Jan- 12 March)
- Invitation send by email

Cora will bake/buy cake for all EE students when the reponse rate of EE is the highest in campus

Please only respond to those questions that are relevant to our EE program. If you choose the “middle option” it counts for the average, when you cross out “not applicable” or ‘no opinion” it does not.

Electives in 3rd year

- Minor Fair: 21 March 2023

- ① Studying abroad;

- ② Broadening modules;

- HTHT modules

- Learning to Teach, Crossing Borders and Governance of Studentorganisations Module

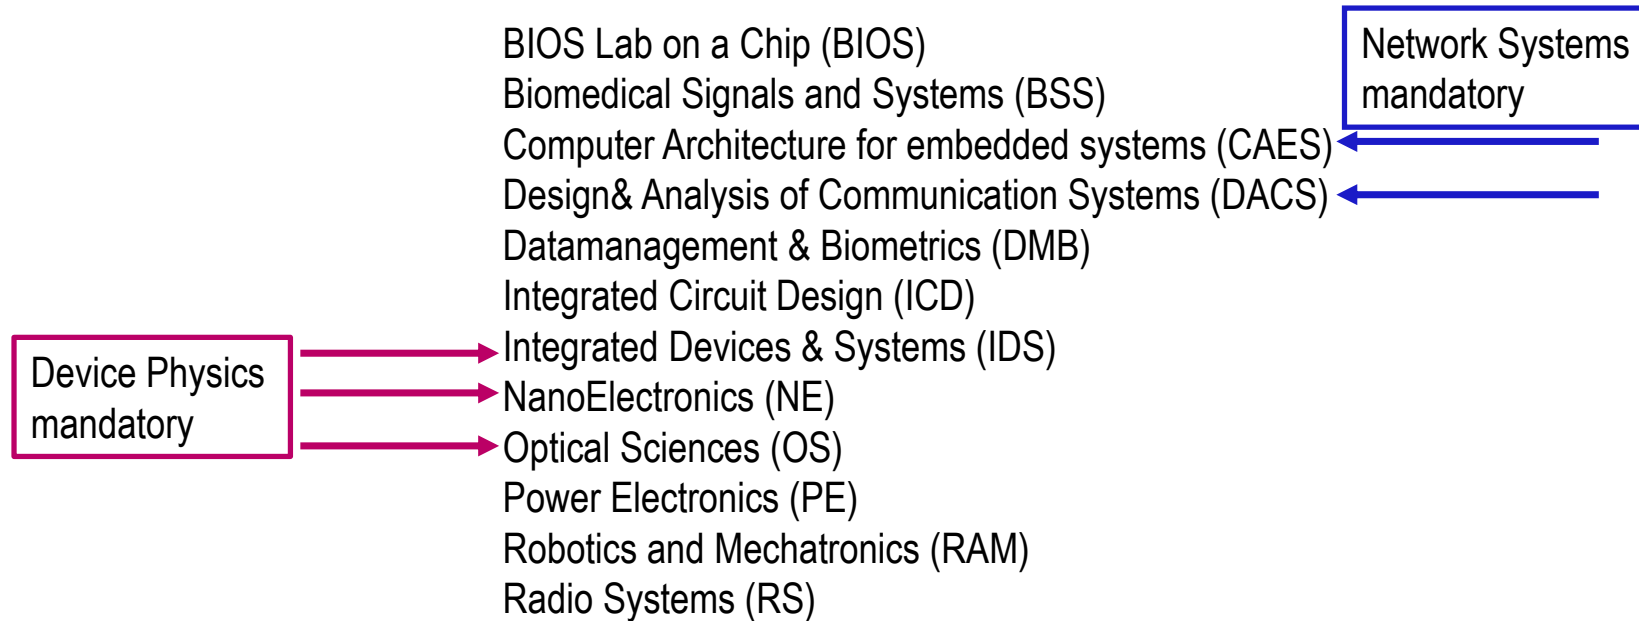

- ③ Modules from another bachelor's programmes

- ④ EE Deepening modules (maximum 1*15 EC)

- We will plan another information session about the EE deepening modules

- <http://www.utwente.nl/profileringsruimte/en/>

Does choice Module 7A/B impact BSc assignment?

All others NO preference

Please note that your BSc diploma makes you eligible to the EE master. For the master gaps in pre-knowledge will be repaired in the master so your M7 choice has no impact there!

What if you need to repeat part of M3/M4?

- Check what you need to follow!
 - Especially people with an extended BSA
 - Module 7A and 7B are both full-time. Following parts of it is possible, but check beforehand!
 - Don't know what to do? → Send me an email
- Avoid doing more than 15 EC
 - History has shown us that this results in less EC obtained than if you focus on less courses at a time
- Only one project allowed per quartile, strict advice to pass the first year project first
 - Otherwise no minor next year
