---

Abimbola Adebayo is an architect and currently a PhD candidate at the Department of Governance and Technology for Sustainability (CSTM), University of Twente, the Netherlands. He holds a post graduate certificate in Global Environmental Policy (University of Geneva), and M.Sc. Architecture (A.B.U, Zaria). He is a lecturer at the Federal Polytechnic, Ado-Ekiti, Nigeria. Abimbola is an expert in Technology for Sustainability and Green Buildings. He is currently investigating the integration of sustainability principles in Public-Private Partnership infrastructure projects in Nigeria. His research interests span sustainable development, environmental governance and justice, sustainable housing development and institutional analysis and development. He has several published articles to his credits.

#### **RESEARCH INTERESTS:**

- Public Private Partnerships
- Sustainable Development
- Green Buildings
- Environmental Governance and Regulations
