**INTERNATIONAL BUSINESS ADMINISTRATION AND BUSINESS ADMINISTRATION PROGRAMME COMMITTEE**

**Subject:** IBA criteria for graduation with distinction  
**To:** Programme Director (I)BA, Dean BMS  
**CC:** IBA BSc Programme Coordinator, BA MSc Programme Coordinator  
**From:** OLC BA/IBA  
**Date:** 15 March 2017

The (I)BA programme committee (OLC) has received:

*Document: proposal to change the criteria for graduation with distinction for IBA*

The (I)BA programme committee (OLC) is asked to provide advice on this document to the IBA programme management.

The (I)BA programme committee (OLC):

- Agrees with the arguments provided and advises to implement the proposed changes.
- Thinks that 8.0 on average results in a more robust evaluation (more teacher and disciplines involved and more observation moments) of a student's qualification than 7.5 and 9 for the thesis. In the existing situation, the thesis, which is graded by only two examiners, has a too high risk of being dependent on specific circumstances of the grading moment. The new grading proposal is also consistent with many other UT programs.
