ONDERWERP: NAME CHANGE OF "EUROPEAN PUBLIC ADMINISTRATION" INTO "MANAGEMENT, SOCIETY & TECHNOLOGY"

Dear members of the Faculty Council,

Currently, the bachelor programme in European Public Administration (EPA) is being redeveloped to become more attractive for students and better fit the profile of University of Twente and Faculty BMS. With the introduction of a new study concept for EPA, there is now an urgent need to change the programme's name.

Attached to this letter you find a policy brief, motivating our proposal for a name change of "European Public Administration" into "Management, Society & Technology". The proposal for the name change is based on the results of a study among Dutch and German students in secondary education, performed by Newcom.

The proposal for a change in the programme's name was discussed in the Education Committee (OLC) of European Public Administration, on March 21st. The Education Committee formulated a positive advice about the change in the programme's name. Please also find the advice of the Education Committee for EPA attached to this letter.

The next step in the procedure is to ask the Faculty Council for advice. The advice is on the agenda for the Faculty Council meeting on 18 April 2017. Afterwards, the proposal for a name change will be sent for advice to the CvB and University Council.
