

Advice PC Communication Science

On Tuesday, we discussed the education-specific OER within the OLC for the Communication Science (Bsc and Msc) programmes. By means of this letter I would like to let you know that we, as OLC, agree to the proposed version of OER (apart from some minor adjustments which are now directly incorporated in the documents before they go to the FC).

Two more things about the general OER:

- in the general Bachelor OER, our study programme is referred to as CW Communication Science. This should be B-COM Communication Science.
- page 15 general Master OER at 4.7 (2): results of an oral test must be communicated to the student no later than the following day. This is the case when oral tests are held with all students of a subject and this is not feasible or desirable.
