

'Exploring Entrepreneurship' Summer School 2018

Entrepreneurship and the 4th Industrial Revolution

August 19 - August 25, Enschede, The Netherlands

UNIVERSITY
OF TWENTE.

The
University
Of
Sheffield.

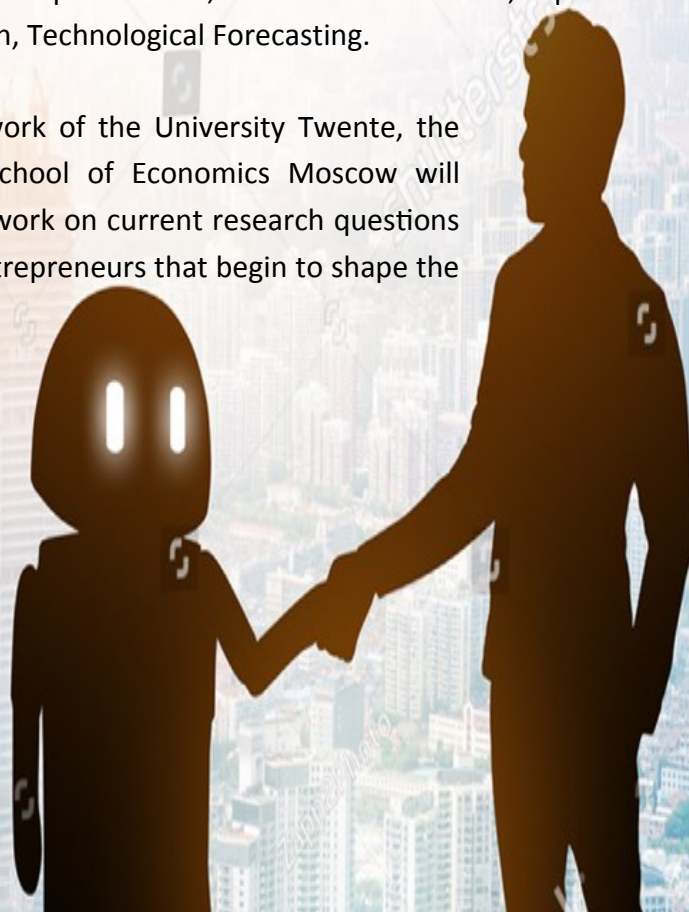

The 4th industrial Revolution is under way. Technologies such as Artificial Intelligence, the block-chain, and ubiquitous sensors are already beginning to shape the world around us. These changes have wide societal implications. For entrepreneurs, they mean the disruption of existing business models and the emergence of new ones. **Boundless opportunities?**

Join us in our EESS summer school on „Entrepreneurship and the 4th industrial revolution“ **to contribute to the debate** in this hot area. Topics include, but are not limited to, Experimental Entrepreneurship, Opportunity Recognition, Technological Forecasting.

International experts from the network of the University Twente, the RUG Groningen, and the Higher School of Economics Moscow will trailblaze into this topic. You get to work on current research questions in international teams, and meet entrepreneurs that begin to shape the future!

This course is open for any student that wishes to learn about entrepreneurship research in on this challenging and hot topic.
