

My name is Wouter and I am a student in Public Administration. I've taken up this Master's programme next to my Master Computer Science, as I see opportunities in being a bridge between the IT discipline and public governance. Currently, I am a member of the faculty council of EEMCS and am also involved in the university council party UReka. In my free time I play hockey at DHC Drienerlo and spend time with my fraternity and housemates.

I became part of the list BMS United because I think it is important that all students within our faculty are represented in the council. If you want your voice to be represented, make sure you cast your vote!

With the seven of us, we want to make a difference by using the knowledge and experience related to educational and organisational processes that we gained during our board years. Our different backgrounds unite expertise, diverse experiences and interests in one enthusiastic team. We actively contributed to achieving changes in educational procedures to make sure students are better represented in influential advisory bodies throughout our entire faculty. On top of this, the understanding that we built up of the way our faculty is organised now, made us realise that we as students can and have to act to further improve the current status of student involvement.
