

Hello everyone,

I'm Yorick Moleman, a student Industrial Engineering and Management! In 2018-2019, I have been a Faculty Council Member, BMS-representative within the board of the Organisation of Study Associations and in 2017-2018, I was the commissioner of Internal Affairs of Study Association Stress. During those years, I had the opportunity to gain experience on a whole range of organisational levels within our university and the BMS-faculty. These experiences led to my belief that there is a lot to be achieved to improve the processes around student involvement on all the tiers in our diverse faculty! Next year, I'd like to be in the Faculty Council again to make a difference!

With the seven of us, we want to make a difference by using the knowledge and experience related to educational and organisational processes that we gained during our board years. Our different backgrounds unite expertise, diverse experiences and interests in one enthusiastic team. We actively contributed to achieving changes in educational procedures to make sure students are better represented in influential advisory bodies throughout our entire faculty. On top of this, the understanding that we built up of the way our faculty is organised now, made us realise that we as students can and have to act to further improve the current status of student involvement.

Vote for better student involvement, vote for List BMS United!
