

My name is H.C. van Beusichem (Henry). I would like to join the BMS faculty council (FC) and would appreciate your support and **vote!**

I am an assistant professor in the Department of Finance & Accounting (HBE). I have joined the university in 2011. Over the years, I have been involved in research and teaching. As a lecturer (and module coordinator), I have contributed to various study programmes especially within and outside of BMS, e.g. (I)BA, IEM, HS and MRM. I am also involved as a reviewer for the BMS Ethics Committee (2016-...) and as a member of the (I)BA Program Committee (2017-...).

The FC should contribute to improving the conditions and environment in which we study and work (academic & support staff). There is always room for improvement but besides 'regular' business and Covid-19, we can expect that there will be important key issues ahead of us because of Shaping2030. I would like to be involved in the discussions, that lead to

- (un)solicited advice to the dean on all matters relevant for the Faculty, its personnel and/or students; and
- exercising the right to (not) give consent to key issues such as the faculty regulations, school policy, and the education and examination regulations.

Awareness how students and employees are affected by proposed policy and regulation changes is essential. The FC should be transparent and observe fairness. I would like to offer my expertise and to be critical and constructive in the process.
