

Hi there, my name is Daan, IEM MSc student, and I am on the list BMS United for the Faculty Council of BMS. I have been a student member of the BMS Faculty Council for two years now and would like to use my experience next academic year as well, to best represent the students of BMS! Before these two years in the FC, I did a board year at Study association Stress, where I had the great opportunity to closely work together with the staff of IEM, IBA and BA. This behind-the-scenes view of the educational programmes got me interested in the way of working at the UT, which brought me to the faculty council.

With the ten of us, we want to make a difference by using the knowledge and experience related to educational and organisational processes that we gained during our board years. Our different backgrounds unite expertise, diverse experiences and interests in one enthusiastic team. We actively contributed to achieving changes in educational procedures to make sure students are better represented in influential advisory bodies throughout our entire faculty. On top of this, the understanding that we built up of the way our faculty is organised now, made us realise that we as students can and have to act to further improve the current status of student involvement.

Vote for better student involvement, vote for list BMS United!
