

Hello! My name is Thomas, I am a master student Industrial Engineering & Management. During the upcoming elections, I will be on the list BMS United for the faculty council of BMS. At the moment, I am already representing the interests of BMS students in the faculty council, and I would like to continue this next year!

Next year, we will hopefully come out of the Covid-19 crisis. As member of the faculty council, I want to make sure that we use the lessons we learned from the pandemic to improve our education. I believe recorded lectures are great as support to “normal” lectures, but I believe studying at the University of Twente is about small-scaled education, for which face-to-face contact is vital.

With the ten of us, we want to make a difference by using the knowledge and experience related to educational and organisational processes that we gained during our board years. Our different backgrounds unite expertise, diverse experiences and interests in one enthusiastic team. We actively contributed to achieving changes in educational procedures to make sure students are better represented in influential advisory bodies throughout our entire faculty. On top of this, the understanding that we built up of the way our faculty is organised now, made us realise that we as students can and have to act to further improve the current status of student involvement.

Vote for better student involvement, vote for list BMS United!
