

Statement Christine Mulrane

Faculty Council BMS

Hello!

My name is Christine Mulrane, and I am a third year Psychology student. During the past two years I have gotten to know many different sides of what it can mean to study at the University of Twente. The unique study experience at our university exists because of the close collaboration with students on more than just their projects or exams.

I've especially come to know this through my board year as the chairwoman of my study association S.V. Dimensie last year. But also, during the past academic year as a student member in the faculty council of BMS. I am eager to continue to represent students' opinions to ensure our voice does not get lost or overheard in the decision-making process. I would like to continue doing so, as part of the faculty council during the next academic year. To ensure that we as students are continued to be seen, heard, and understood. Together with UReka, I will try my best to make sure that the faculty learns, understands, and integrates the ideas of students in their plans. I am looking forward to working together with the faculty.
