

Statement Ruben Klaas

Faculty Council

My name is Ruben Klaas, fourth year Industrial Engineering and Management Student. Currently I'm in my first year of the IEM master. My interests lie with the organization and strategies of the different institutions of a large organization. Currently, I am a member of the programme committee of IEM. I like being involved in the organization of the IEM programme, and I am really looking forward to extending the gained experiences and knowledge from the IEM programme committee to the BMS faculty council. Within the faculty council, I want to represent the voice of the students and their needs and ideas. I believe that it is a great privilege to be able to be involved in the decision-making process within the faculty of BMS and will therefore doing my best to make sure the best possible decisions are taken. Together with UReka, I will try my best to make sure that the faculty learns, understands, and integrates the ideas of students in their plans. I am looking forward to working together with the faculty.
