

Motivation Faculty Council

I am Dóra Csiszár 1st year international, International Business Administration student. In October of the year 2021 I had the chance to attend a panel meeting of the faculty. I think it is wonderful how the experiences and voices of students are heard. I feel like teachers are interested in and take into consideration our opinions on multiple subjects. Thus, I started being active in multiple organizations.

Currently I'm involved in H.V.Ockham and Stress in multiple committees and work as a student assistant in the organization of panel meetings.

As a student and as a member of this university I believe it is important to maintain, and if possible improve the quality and effectiveness of learning, teaching, and studying in BMS. I love to take part in this process in any ways possible. Collectively with UReka I hope to give useful insights, comments, and observations to help the process move in a positive direction for all parties.
