

# Statement Jeroen Assink

## Faculty Council

My name is Jeroen Assink, third year Industrial Engineering and Management Student. My interests lie with the strategy and vision of large organizations. In the academic year 2020-2021, I was chairman of S.A. Stress, and in this year I have gained an immense amount of knowledge about the university, but I also found out that there is still much more to learn. Therefore I joined the University Council this year. Now it is time to take a small step back from university wide level to faculty level. The University of Twente provides students with the possibility of working together to achieve great things, and I believe we as students should take that opportunity to actively contribute to our university. Together with UReka, I will try my best to make sure that the faculty learns, understands, and integrates the ideas of students in their plans. I am looking forward to working together with the faculty.
