

Statement Loris Regenwetter

Faculty Council

My name is Loris Regenwetter. Currently I am a second-year student pursuing a Bachelor in International Business Administration with an interest towards Finance. In my two years at the university, I have participated in various bodies dedicated to the representation of our fellow students. These are in different levels of the university, such as the Education Committee at Stress and the Programme Committee of IBA. For my third year, I am hoping to be able to represent our fellow students at an higher level, the Faculty Council. In my opinion it is very important that the students have people they can count on and take on more workload to ensure that the students are heard so that the university develops in the best interest of the students. Together with UReka, I will try my best to make sure that the faculty learns, understands, and integrates the ideas of students in their plans. I am looking forward to working together with the faculty.
