BMS | Cubicus | B322
PO Box 217
NL - 7500 AE Enschede

E-mail: w.m.luiten@student.utwente.nl
Telephone: 053-489 3611 (Secretarial office)

Background

I started studying at the UT in 2012. After 1,5 years of Biomedical Engineering, I decided to switch to Applied Physics. So, why the BMS Faculty Council then? I finished my bachelor Applied Physics and decided to do the Educational Master (SEC), to become a physics teacher in high school. Last year (2017-2018) I was in the University Council on behalf of UReka, where I was chairwoman of the committee Education, Research and Student Affairs.

Before that I have been active within S.V. Arago and Overleg Studieverenigingen. Last year, I learned a lot about the UT and I want to keep helping the UT stay a top university! During my University Council I spent a lot of time on the dossier of Quality Agreements and WSV, which I would like to continue in the Faculty Council. This year I will (hopefully) finish my master's.

Other activities

Active member at Studievereniging Arago.
