

Hi, my name is Daan and I am on the list BMS United for the Faculty Council of BMS. During my board year at study association Stress, I got to learn a lot about the university while representing the IEM and IBA students to their programme managements. This academic year, I have used and expanded that knowledge as a student member of the faculty council. It has been very interesting discussing the policies of our faculty. Therefore, I would like to continue representing you, the students of BMS, in the faculty council of next year.

With the seven of us, we want to make a difference by using the knowledge and experience related to educational and organisational processes that we gained during our board years. A board year where we actively contributed to achieving changes in educational procedures to make sure students are better represented in influential advisory bodies throughout our entire faculty. On top of this, the understanding that we built up of the way our faculty is organised now, made us realise that we as students can and have to act to further improve the current status of student involvement.
