Management

Rasmus Weibull

My name is Rasmus, and I would be honoured to represent you in the BMS Faculty Council 2021. I think that the most important ability for a representative of the students of BMS is to be able to listen to and understand all the different wishes, desires, and needs in our diverse student body. This is something I will try my best to do, and something which I find very enjoyable and deem myself capable of. Furthermore, I believe that as a representative in this council, I will need to be able to make my voice heard, and present my ideas and my understanding of the student's needs in a comprehensible form. This will allow us, as a council, to be able to solve them as best as possible, compromise when needed, and always make the best possible decisions.
