

Hey guys, my name is Christine Mulrane and I am a second year Psychology student and I am on the list BMS United for the Faculty Council of BMS. Throughout the past two years I have gotten to know many different sides of what it can mean to study at the University of Twente. The unique study experience at our university exists because of the close collaboration with students on more than just their projects or exams. I've especially come to know this through my current board year as the chair of my study association S.V. Dimensie. And together with BMS United I would like to continue this close collaboration with students, as part of the Faculty Council. To ensure that we as students continue to be seen, heard, and understood.

With the ten of us, we want to make a difference by using the knowledge and experience related to educational and organisational processes that we gained during our board years. Our different backgrounds unite expertise, diverse experiences, and interests in one enthusiastic team. We actively contributed to achieving changes in educational procedures to make sure students are better represented in influential advisory bodies throughout our entire faculty. On top of this, the understanding that we built up of the way our faculty is organised now, made us realise that we as students can and have to act to further improve the current status of student involvement.

Vote BMS United!
