Unlock your future

Career opportunities after your PhD or postdoc

Presenter: Audrey Peters - AcademicTransfer

Did you ever consider life beyond your PhD or postdoc in terms of career perspective? If not, do you know that about 70% of all PhD's and 80% of all postdocs explore career possibilities outside of academia?

But where do you start your search? And even if you find organisations or sectors that offer research positions, how can you tell if you fit in or meet the criteria? And if you do meet the criteria, how do you get in touch with these organisations or sectors?

To answer these questions AcademicTransfer developed different tools for young researchers who want or need to explore their next career step. During this workshop we will show you how AcademicTransfer's toolbox can support you on your career journey in research in the Netherlands. [All tools can be found here.](#)

Audrey Peters

At AcademicTransfer Audrey Peters is manager operations and product innovations, and projectleader of 'Making the Labour Market Transparent for Young Researchers'. In the past she held several management positions at the University of Amsterdam and was a coach and trainer for academic staff.
