

PLC on Exploring Blended Learning

Facilitators: Francesca Frittella (E-Learning specialist @ BMS) and Robin van Emmerloot (educational consultant @ TELT/CELT)

Description

Let's go on expedition blended learning!

Together with the members of this PLC, we'll explore the world of blended learning and how you can incorporate this in your daily education. After exploring blended learning and how to design it, we'll collaboratively choose a topic and goal to focus on for the next sessions. These can be on themes like assessment, media, interaction or anything else that comes up during the sessions.

Schedule

Total: 5 meetings of 90 minutes

2x explorative on blended learning

3x diving into a field of blended learning

Time investments and returns

It's expected you show up to the (physical) meetings, but also are available to do some preparation before these sessions as a member of the PLC. In return you won't only learn from your own preparations, but also the other members and together come up with answers to your collective goal!
