

Evaluation report

Aero Acoustics 2009-2010

The evaluation committee has evaluated the course Aero Acoustics by sending an online questionnaire to 16 students. 8 students filled in the questionnaire, which gives a response of 50%.

The overall appreciation for the course Aero acoustics is marked with an 8.5. The course is given in one complete week (which makes it an intensive course) and there is no obligatory examination. All the questions of the evaluation were marked very high and the comments are very positive. Also the two initial lectures given were found interesting (9.4) and added value to the course (9.1).

These are the main conclusions of the evaluation. The interpretation is based on the remarks of the respondents. For an overview of the results, see the graph at the end of this report.

Recommendations by the committee:

As this course is well appreciated by the students and no structural complaints were given, the committee can only recommend to proceed the course in this way.

Overview:

- Most marks are given on a scale from 1-5 and converted to a scale from 2-10 by multiplying with a factor 2. Therefore, a mark of 6.0 or higher is sufficient.
- The height of the bars in the graph represents the mark. The thin line at the top of the bars gives the standard deviation.
- Tempo of lecture grades: 2 is too fast, 6 is perfect, 10 is too slow.
