

ImEvaluation report Laser Materials Processing

The evaluation committee has evaluated the course Laser Materials Processing by sending an online questionnaire to 20 students. 9 students filled in the questionnaire, which gives a response of 45%.

The overall appreciation for the course Laser Materials Processing is marked with an 8.3. All different aspects of the course receive marks above 7 with a relatively high average. The availability of the teacher is even rewarded with a 10. Laser Materials Processing can therefore be seen as a good course.

These are the main conclusions of the evaluation. The interpretation is based on the remarks of the respondents. For an overview of the results, see the graph at the end of this report.

Recommendations by the committee:

As this course is well appreciated by the students and no structural complaints were given, the committee can only recommend to proceed the course in this way.

Remarkable Facts:

- The availability of the teacher is rewarded with a 10!
- The relevance of the course is valued with a 7.3, which is relatively low compared to the other aspects.
- Since practical sessions were integrated in this course, the grade for the suitability of the course for self study can be neglected.

Overview:

- Most marks are given on a scale from 1-5 and converted to a scale from 2-10 by multiplying with a factor 2. Therefore, a mark of 6.0 or higher is sufficient.
- The height of the bars in the graph represents the mark. The thin line at the top of the bars gives the standard deviation.
- Tempo of lecture grades: 2 is too fast, 6 is perfect, 10 is too slow.

Orange	General
Yellow	Lectures
Blue	Study material
Purple	Examination / Final Assignment

Marks	
Total appreciation	8.3
Ability to study	8.8
Relevancy	7.3
Quality of education	9.1
Coordination / planning	9.6
Examination / Assignments	8.7
