

Evaluation report: Manufacturing Facility Design – 2013/2014

Course code: 191102041

Contact: dr.ir. S. Hoekstra

The evaluation committee has evaluated the course Manufacturing Facility Design by sending an online questionnaire to 46 students. 22 students filled in the questionnaire, which gives a response of 48%.

This course is reviewed with an average of 3.4 which is slightly below the sufficient grade for a master course (3.5). The lectures did not make the subject clear (2.4). A reason for this is that the level of English was not adequate and all the information the lecturer gave was already on the slides. The slides contain some errors and still refer to Teletop. At last some respondents remark that the calculations in the slides were not clear enough to be able to reconstruct them.

These are the main conclusions of the evaluation. The interpretation is based on the remarks of the respondents. For an overview of the results, see the graph at the end of this report.

Recommendations of last evaluation

No previous report was found. It is therefore not possible to state the recommendations of the last evaluation.

Recommendations by the committee:

The quality of the course can be improved. Based on the results of the questionnaire, some recommendations for improvement are provided. The most important recommendations are:

- Improve and update the slides.
- Dr. Ir Hoekstra should improve his English.

Remarkable Facts:

- Lectures of Juan Jauregui were interesting and helpful
- Lectures of dr.ir Hoekstra were considered boring and not very helpful.

Overview:

- All marks are given on a Likert-scale from 1-5. For master courses, a mark of 3.5 or higher is sufficient.
- The height of the bars in the graph represents the mark. The thin line at the top of the bars gives the standard deviation.
