

Evaluation report Fluid Mechanics 2

201500136

prof.dr.ir. C.H. Venner

The evaluation committee has evaluated the course Fluid Mechanics 2 by sending an online questionnaire to 50 students. 16 students filled in the questionnaire, which gives a response of 32%.

The course Fluid Mechanics 2 scores an average of 4.3, which is good for a master course. All marks were sufficient to excellent, the lowest grade is given to 'The requirements for the assignment(s) were clear. In the comments some students say that it took a while before the assignments became available, they'd rather receive them earlier. Overall, the students really show their appreciation for the teachers, they think the course was taught very good even though it was the first time this course was given this way. This can be seen in the marks for the availability of the teachers (4.8) and the mark for how interesting the contents of the course were (4.6), both rated excellent.

These are the main conclusions of the evaluation. The interpretation is based on the remarks of the respondents. For an overview of the results, see the graph at the end of this report.

Recommendations of previous evaluation

No previous report was found. It is therefore not possible to state the recommendations of the last evaluation.

Recommendations by the committee

The quality of the course can be improved. Based on the results of the questionnaire, some recommendations for improvement are provided. The most important recommendations are:

- Make the assignments available earlier. Several students asked for this in the comments.
- Keep it up! The course scores very well and gets really good marks

Overview

- All marks are given on a Likert-scale from 1-5. For master courses, a mark of 3.5 or higher is sufficient.
- The height of the bars in the graph represents the mark. The thin line at the top of the bars gives the standard deviation.
