

FrieslandCampina Corporate Traineeship

About FrieslandCampina

At FrieslandCampina, our passion to get more out of milk and help consumers grow and develop is shared by our 22,000 employees. Every day we reach millions of people in over a hundred countries worldwide with more than 30 brands. With annual revenue of 11.3 billion euro, FrieslandCampina is one of the world's six largest dairy companies.

Job Description

You will join a two-year trainee programme in the field of Finance, Supply Chain & Operations, Technology, ICT or Commerce. You will be assigned to two different year positions with each a unique project. You will be fully responsible for all activities attached to this position, and for the associated targets. A line manager will be assigned to you who will guide you in your day-to-day work. In addition you will receive support from your mentor with whom you can reflect. After the first year, you will consider together with us what would be a good next step for your development and what position would be appropriate. If you have successfully completed your traineeship, you will be appointed to a permanent job which ties in with your career goals!

Job Requirements

To qualify for the traineeship a completed Masters' degree and less than two years' work experience is mandatory. We are looking for active students who are developed. Examples of this are a board function during the college years, international experience, a double degree and/or relevant work experience. You will obviously have a fluent command of English. Finally, you should have a clear ambition for a career within the discipline you are interested in.

We expect our trainees to successfully complete projects and always add value to their environment. All our trainees are ambitious, keen to continuously develop themselves and take initiative. They are independent but also good team players, since they know that 'alignment' with their colleagues is important. They also place considerable emphasis on self-reflection and self-development.

Drive and the ambition to be successful, standing by what you say, good communication and persuasion skills, analytical capabilities, the ability to present a clear vision and to see the bigger picture as well as individual details, respect for different cultures and a sincere interest in your colleagues all go to make the perfect trainee.

Terms of Employment

Your salary will be in line with market norms, but FrieslandCampina rewards in other ways as well. We believe it is important that you continue to grow, since your ongoing development will benefit both our products and your own career. We will therefore invest in relevant training and courses in your professional area. On the work floor, too, you will see that the emphasis lies on the exchange of reciprocal knowledge between colleagues. That is after all how you will learn the most.

Contact Information
