

Internship: Supply Chain Management

Apply here: <http://bit.ly/2cSCVOB>

Your challenge

Are you the enthusiastic, talented intern we're looking for?

Philips Lighting wants to improve people's lives. By understanding our customers' needs and desires we deliver innovation that matters to you, to your cities, businesses, homes and communities. In particular, we will take light beyond illumination, making people safer, happier and more productive.

Do you share our passion?

Then come and help us make a difference for people all over the world. Join a world-renowned company where innovation is constantly channeled to meet the genuine needs of customers & consumers. We challenge the status quo and break new ground on a daily basis. Because we create innovations that matter!

Your responsibilities

You'll be part of the Supply Chain team of Philips Winterswijk, the Customization & Solutions center for Office & Industry customers. Your task will be to design a solution to a challenging issue in our supply chain. Amongst others, you will have the great opportunity to:

- Interact with many different stakeholders in the process in scope
- Identify issues via process mapping
- Analyze KPIs, root causes and improvement actions
- Design a solution based on your analysis and supported by theoretical studies
- Lead a multifunctional team to implement the designed solution

We are looking for

To be successful in this internship we are looking for someone who:

- Is currently studying towards a Bachelor or Master in the following areas: Supply Chain Management; Logistics or Industrial Engineering & Management Sciences
- Is proactive, flexible, dynamic and has excellent communication skills
- Is fluent in English (Dutch is a plus)
- Is advanced in Excel

Engagement in extracurricular activities is also an advantage

Our offer

We offer you the opportunity to work in a dynamic and challenging environment. You will experience our innovative and customer focused mindset and get the opportunity to contribute to achieving our business goals.

- This internship can be adapted to a thesis or non-thesis project
- Duration of the internship is at least 5-6 months
- Preferred starting date is October 2016

Internship conditions:

- Students on work placement or final-year study assignment **are paid** a work placement or final-year study assignment allowance.
- A student on a work placement or final-year study assignment is paid an allowance towards rented accommodation, depending on his/her situation. This will be determined setting up the Intern Contract.
- A student on work placement or final-year study assignment who can prove that he/she is not entitled to a student card for public transport (OV-studentenkaart) is paid an allowance to cover the cost of travel between home and the place of work in accordance with the Conditions of Employment Guideline.
- The student is entitled to paid leave on the basis of 1 day per month.
- Opportunity to buy Philips products with tax benefit (Philips MyShop)

Notes

- Required documents in order for us to continue with your application:
- Student registration form (Proof of enrollment at your current education)
- Resume
- Cover Letter outlining your motivation and informing your availability

In order to be considered for this internship, you need to be an EU/EER citizen and you need to be **registered as a student during the entire internship period**. Formal documentation of this may be requested at any time.

The contents of our regular internship assignments are not suitable for professionals (and/or MBA students) with professional work experience.
