

LIBERTY IS

investing, innovating, empowering

Technology & Innovation Graduate Programme

Based in Amsterdam

This is an opportunity to build your career within the world's largest international TV and broadband company. To gain end-to-end exposure across the whole of our Technology & Innovation team. To have a voice, to share your ideas, to challenge how we work. Ultimately, this is about shaping our business as you grow invaluable skills.

Technology & Innovation is at the core of Liberty Global – we're committed to delivering transformational products and services that help improve and simplify the digital lives of our customers. Lasting for two years, the programme will see you undertaking 6-month placements in a range of departments.

These could include:

- Technology connectivity
- Product business planning & research
- Technology transformation delivery
- Technology ventures
- Technology strategy
- Supply chain planning
- Network optimisation
- Core networks & operations
- Product development

You'll also take part in tailored training programmes covering leadership development as well as functional and technical expertise.

You'll need to be:

- Qualified with, or on course for, at least a 2:1 or equivalent
- Passionate about pursuing a career in a Technology & Innovation field
- Someone who enjoys being challenged
- A natural leader, a big thinker – you can collaborate, analyse problems and come up with great ideas
- Driven, with the confidence and resilience to get things done
- Fluent in English with global mobility
- Eligible to work in the UK and EU

Benefits: Localised salary and benefits package

Application deadline: 14 January
